DETAILED ACTION

Allowable Subject Matter

Claims 10-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The Applicants amended claims 10, 15, and 18, added new claims 20 and 21, and presented arguments in favor of existing claims, according to the Amendment received 11/03/2004. The Applicants demonstrated to the Examiners satisfaction, with respect to the double patenting rejection, that the reference of Nagayoshi (US 6,657,722) is not applicable to the present Applicants' invention.

As to Claim 10, the prior art of record taken along or in combination, fails to disclose or render obvious said transport means extending underneath the receiving tray, which runs through the transport path, and which is arranged to be able to locate the light receiving means fixed closely underneath the receiving tray running through the inspecting position, in combination with the rest of the limitations of the claim.

The dependent Claims 11-14, 16-18 are allowed by virtue of their dependence upon Claim 10.

As to Claim 15, the prior art of record taken along or in combination, fails to disclose or render obvious said light receiving means having an air blow hole arranged to blow in air from lateral direction toward the center of upper surface of light receiving window of lens hood of condenser lens located upwardly underneath the receiving tray, in combination with the rest of the limitations of the claim.

The dependent Claim 19 is allowed by virtue of its dependence upon Claim 15.

As to Claim 20, the prior art of record taken along or in combination, fails to disclose or render obvious said condenser lens provided with a lens hood arranged to secure a visual field on the object side of said condenser lens and a light receiving window which is made of transparent glass and disposed of the front side of said lens hood to form a dust-proof structure; and a dust-proof means arranged on the side of said transparent glass to blow air from the periphery thereof toward the center of said light receiving window, in combination with the rest of the limitations of the claim.

As to Claim 21, the prior art of record taken along or in combination, fails to disclose or render obvious means for increasing or decreasing the quantity of light projected by said large number of light projecting lamps of said projecting means by increasing or decreasing a number of light projecting lamps to be lighted up among said large number of light projecting lamps according to the size of the inspecting object, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
